

1. Create a resource file and the icons to the file and file named resource2.qrc is created

2. Convert the resource2.qrc to *.py code

Install the conversion program pyuic5.exe: `\Scripts> ./pip3.exe install pyqt5ac`

Convert the resource to python code: `C:\Supplement\Python39\python.exe .\pyuic5.exe -o .\resource.py .\resource2.qrc`

The resource has been converted to code

```
# -*- coding: utf-8 -*-
```

```
# Resource object code
```

#

```
# Created by: The Resource Compiler for PyQt5 (Qt v5.15.2)
```

#

```
# WARNING! All changes made in this file will be lost!
```

```
from PyQt5 import QtCore
```

```
qt_resource_data = b"

```

- ### 3. Import the resource to the python code

```
from resource.py import *
```

pyinstaller -F *.py will automatically include the icons and will not need to add the path
